Dear colleagues,

On behalf of the board of the Belgian Society of Gastrointestinal Endoscopy, I am happy to invite you to this exciting Joint Meeting in Brussels.

On Thursday and Friday, we are proud to welcome our European and French colleagues who have chosen to move to Belgium and to share their expertise in EUS techniques with us.

On Saturday, we welcome all participants to attend our 22nd annual national Meeting and hope the youngest ones will be well represented, as the main topics will focus on teaching and training for the future in endoscopy.

It will be a great pleasure & opportunity to discuss various important topics concerning our so fast evolving specialty with Belgian and worldwide experts in the field.
