

INTRODUCTORY GI ENDOSCOPY HANDS-ON WORKSHOP

**BSGIE
Workshop 2017**

THURSDAY 28 SEPTEMBER
BRAINE-L'ALLEUD KINEPOLIS IMAGIBRAINE

AIM OF THE SESSION

- Allow trainees with limited experience to become familiar with flexible gastroscopy and colonoscopy
- Give the opportunity to more experienced trainees to learn the first steps of retrograde cholangiography

CONTENT

- Endoscope handling on non biological models : 1 stomach, 1 colon and 2 duodenum models (designed by Prof. Costamagna)
- Basic methods in gastroscope insertion and examination of the upper GI tract
- Basic methods in colonoscope intubation & examination of the lower GI tract
- Recognition of upper and lower GI common pathology

The four stations will be led by BSGIE experts with the assistance of nurses of ENDOFIC.
